Buying Green Energy

Want to do something positive about climate change, but not sure how to start?

How about starting at home – with your energy use?

By switching your money to an energy supplier that generates electricity from renewables and offers ‘green gas’.

Name and weblink	Electricity	Electricity price p per / KWh	Standing charges p per / day	Gas	Gas price p per / KWh	Standing charges p per / day
Bristol Energy – BE Supergreen https://www.bristol-energy.co.uk/	100% renewable, UK	22.58	26.24	100% carbon offset	5.45	21.87
Bulb Energy https://bulb.co.uk/	100% renewable – UK: solar, hydro and wind	20.871	24.02	100% carbon offset and some from renewable sources	4.055	26.12
Ecotricity https://www.ecotricity.co.uk/	100% renewable – UK: hydro, wind and solar. 20% from Ecotricity’s own wind and solar parks	21.11	29.48	100% carbon neutral green gas	5.15	29.00

Name and weblink	Electricity	Electricity price p per / KWh	Standing charges p per / day	Gas	Gas price p/KWh	Standing charges p per / day
Good Energy https://www.goodenergy.co.uk/#	100% UK renewable. 53.9% wind, 28.4% bio-generation, 13.4% solar, 4.3% hydro.	18.69	30.59	10% is biogas from organic matter and the other 90% is offset through carbon reduction schemes	4.86	31.57
GEUK – Green Energy UK https://www.greenenergyuk.com/	100% renewable – solar, biomass, hydro, wind.	22.67	32.95	100% green gas from Anaerobic Digestion	5.99	31.31
Octopus energy https://octopus.energy/tariffs/	100% renewable	Flexible Octopus 20.3	24.01	Flexible Octopus – natural gas	3.83	23.85
		Supergreen Octopus – 21.67	24.01	Supergreen Octopus – gas is offset	5.16	26.59
Cooperative Energy (powered by Octopus energy) https://energy.yourcoop.coop/	£82.99 per month on the Co-op Community Project (sourcing 100% of the energy from community-run projects around the UK and gas is carbon-offset). Standing charges and unit prices fixed for 12 months. £70:55 per month on the Co-op Flexible tariff. 100% renewable electricity. Charges will change with wholesale prices.					
Ovo Energy https://www.ovoenergy.com/	100% renewable	25.91	23.21	15% greengas and 85% offset	6.87	21.42
Pure Planet https://purepla.net/tariff	100% renewable (89% wind, 11% solar)	28.08	26.30 (£6:00 per month for dual fuel membership)	100% carbon offset	7.29	26.30 (£6:00 per month for dual fuel membership)
